

## Terms and Conditions of this Purchase Order

Revised March 21, 2018

Please accept our purchase order and provide these items or service(s) subject to the conditions described within and all attached documents. Commencing work indicates the acceptance of this purchase order in its entirety.

Attention: Any violation of the purchase order requirements stated below may result in Central Industrial Manufacturing canceling the purchase order, return of items at supplier's expense, cause and corrective action may also go against supplier rating and/or approval status.

Detection of any nonconforming product regarding any order (currently in process or previously shipped) must be communicated to Central Industrial Manufacturing within 24 hours. Delivered nonconforming products, in transit nonconforming products, or suspect product. The supplier must receive prior authorization and disposition from Central Industrial Manufacturing when nonconforming product is detected at the supplier's premises.

The supplier shall notify Central Industrial Manufacturing of the following; the supplier agrees to notify Central Industrial Manufacturing of changes to products, processes, sub-tier suppliers, and changes in manufacturing facility locations. The supplier agrees to Flow down requirements to sub-tier suppliers. Flow down control includes configuration and design change requirements, non-conforming product notification and/or deviation from agreed upon specification requests, key characteristics, change or transfer of sub-tier location.

All orders are for current revision of part needed, unless specifically stated. Any change in the product and/or process, change of location of manufacture, supplies, the supplier must obtain approval where required.

If deliveries are not made within time and quantities specified, Central Industrial Manufacturing may cancel this order by notice, effective when received by Seller.

The supplier agrees to maintain all records required by Central Industrial Manufacturing for the life of the product, plus one year. All records must remain legible and readily retrievable at the request of Central Industrial Manufacturing.

Acceptance of this purchase order gives Central Industrial Manufacturing or their customer the right to enter the supplier's facility, as well as all sub-tiers that are applicable to the order, with appropriate notification and planned arrangements.

The supplier shall abide by section 8.4 of the AS9100 Rev D standard. All inspection records are to be kept indefinitely unless otherwise noted.

All raw material shipped on any CIM PO must be DFARS clause 252.225-7009 compliant.
